The new 13th edition of Dale and Appelbe's Pharmacy and Medicines Law is the guide to law and ethics for pharmacy practice in the UK. It covers law and professional regulation and is firmly established as the definitive student textbook and reference work on this subject in the UK.

This edition has been extensively restructured and revised to include:

- two new chapters on online pharmacy and hospital pharmacy.
- new legal duties for superintendent pharmacists and responsible pharmacists;
- the role of chief pharmacists;
- extensive amendments to the Veterinary Medicines Regulations;
- extending the right to prescribe and to supply medicines to pharmacists and other healthcare professionals;
- the broadened roles of pharmacy technicians;
- original pack dispensing;
- a defence to prosecutions for dispensing errors made in hospitals and prisons;
- changes to the law on pharmacist supervision, changes to broaden the opportunity to use hub and spoke dispensing.
- other changes and case law that are covered bring into play topical issues involving puberty blockers, Wegovy and Ozempic, valproate, cannabis and Botox.
